PASS COMPETITORS SUCCESSFUL AT PROVINCIAL FESTIVAL

Competitors from this district to the provincial musical festival at Lethbridge this week were quite successful. Particularly so were Lorraine Olivier, Blairmore, and Lawrence Fisher, of Hillcrest, who won first and second places, respectively, in a class of twenty in primary violin. Lorna Hales, Blairmore, and Joey Bushken, Calgary, tied for second place in primary piano class, with Freda Antrobus, Coleman, a very close third, marks being 174 and 173. James Marshall, Hillcrest, attained third place in intermediate violin; Frances Lively and Jean Cruickshank, Hillcrest and Blairmore, first in intermediate piano duet, and George Kerr, Blairmore, first in junior violin. Beatrice Trono, of Blairmore, won second honors in a class of thirteen in intermediate piano.

ST. LUKE'S CHURCH

A meeting of the men of St. Luke's was held in the Parish hall last Thursday evening, May 21st, for the purpose of organizing a men's society in the interests of good fellowship. Periodical social meetings will be held, and it is hoped that the society will be productive of much good, and that many pleasant evenings will be enjoyed by the membership.

The officers elected at this meeting are as follows: president, C. Cartwright; vice-president, George Brown; secretary, J. J. Weaver; treasurer, W. J. Fischer; executive committee, Messrs. T. Campbell, Ed. Royle, M. Johnson and G. Brown, Jr.

Following the election of officers and a general discussion, card games and checkers were indulged in, and a pleasant evening was brought to a close at about 11:30 p.m.

A meeting of the executive will take place this evening, commencing at 8:30.

BLAIRMORE PUBLIC LIBRARY

New books placed on the shelves this week are:

Juvvenile Fiction—"Emily of New Moon," by L. M. Montgomery; "Emily's Quest," by L. M. Montgomery; "The Curly Tops Snowed In," by H. R. Garis.

Fiction—"Secret of Little Gods," by K. H. Taylor; "Made of Money," by P. B. Kyne; "Scarlet Sash," by J. M. Nelson; "The Three Musketeers," by A. Dumas; "Blue Water," by F. W. Wallace.

Library hours are, Tuesdays, Thursdays and Saturdays, from 7 to 9 p.m.

THREE IN ONE FISH STORY

Kingston, N.C. May 11.—(A.P.)—A. Hobgood, member of the Kingston Nature Society, says this fish story comes straight from a friend he never knew to distort a fact.

The friend was fishing for pickerel and caught a 24-pound fish. Dressing it, he discovered a two-pound eel inside.

The club was dressed in turn. It contained a perch weighing half a pound. Inside the perch was the minnow used for bait. Oh, well!

How many opportunities are missed by our waiting for them to come to us—the positive factor for the negative. Opportunities are less movable than souls and wills. Why not search for them instead of waiting for them to search for us?

C. Sartoris will return today from North Portal, where he had no time to meet Charlie Miro, a former teamster, who has been seriously ill for some time in a U. S. hospital. Charlie's condition is yet very poor, but he hopes to gain strength in the mountains.

MINER IS KILLED AT COLEMAN

An accident which happened in room 35 of B level, York Creek district of the International Coal & Coke Co.'s operation, Coleman, proved fatal to Joseph Gandy on Friday evening last, when a section of cap rock fell on him, crushing him terribly, so that he lived but a short time after. His working partner and brother-in-law, Frank Horjek, sustained slight injuries, but was able to extricate Gandy from the debris. Horjek summoned help, but Gandy died on the way out.

Gandy was but thirty-four years of age, and leaves a young wife, formerly Miss Anna Horjek, of Frank, and one child, with whom profound sympathy is extended. His mother lives at Fort William, Ontario.

An inquest was held, at which a verdict of accidental death was returned.

The remains were laid to rest on Monday afternoon, arrangements for the funeral being in charge of the Moose Lodge, of which he was a member.

CORBIN HAPPENINGS

Mrs. F. McKay and small daughter Ruth, who had been spending a few days here, returned to Blairmore this week.

Mr. and Mrs. Hans Jorgenson and son Harry, also Miss Anne Wilson, left by motor on Saturday morning for Calgary, where they spent the week end.

Mr. F. Philips, mine timber contractor, is erecting a new residence at the Y.M.C.A.

The Corbin football team journeyed to Hillcrest on Saturday and were defeated 3-0. On Sunday, the same team motored to Fernie and won with a score of 4-3.

Dr. and Mrs. Elliott and family, Mr. and Mrs. A. Shepard and family, and Mr. and Mrs. A. Logan and family were visitors to Mud Lake on Sunday.

"Dutch" Peters, of Corbin, was a passenger in the airplane that crashed near the Fernie airport on Sunday last. "Dutch" is lying in the Fernie hospital in a very serious condition.

M. Gibson and D. Waddington were Fernie visitors this week.

Nearly half the population of Corbin journeyed east on Monday, May 25th, and were all noticed at the C.W.L.Y. sports.

Despite inclement weather, the Coleman Players arrived in town on Friday night in ample time to present their play, "It Pays to Advertise," in the Community hall. All Corbin turned out, giving the players the pleasure of playing to a full house. This is the first time in the history of Corbin that the town has been able to enjoy imported talent.

For the advent of the play, the Corbin citizens wish to show their appreciation of the performance on Friday night by stating that the Coleman Players gave an excellent rendition of their play, and any visit in the future will be looked forward to with great pleasure.

Mr. W. Almond, who has been ill for some time, is up and around again.

Friends of Mr. W. Porter, who has been seriously ill, will be glad to know that he is up now and progressing favorably.

A SPLENDID IDEA

The local war memorial committee, which has nearly \$1,000 on deposit in the bank, is considering purchasing a portable X-Ray machine for the hospital, and it is proposed to have a bronze plaque bearing the names of Coleman men who were killed or died on service during the war.—Coleman Journal.

WORLD HAPPENINGS BRIEFLY TOLD

Insurance indemnities are not liable to income tax, the Supreme Court of Canada has ruled.

Gold reserves of the world will be used in the future for international banking, Sir Thomas White predicts.

The Graf Zeppelin is being groomed to make six trans-Atlantic trips this summer, Martin Wronsky said.

The government does not intend making any changes to the Canada, Grain Act in the present session, Hon. H. H. Stevens declared.

Calgary, centre of Canada's greatest gold rush, has gold to the value of \$300,000,000 if it could be worked commercially and scientifically.

One of the paintings of Mrs. Melita Atteien of Victoria, B.C., has been hung by the Royal Academy, London, England.

Turned too radical in character, the Senate defeated a bill which would have compelled citizens of Canada to carry an identification card bearing their photographs.

The women of the Dominion will present a huge petition to the League of Nations urging reduction in the manufacture of the instruments of warfare.

Canada sold to China 184,000 tons of wheat during the past year, while Australia sold 400,000 tons, according to figures given by Hon. H. H. Stevens.

Chief Buffalo Child Long Lance, Blackfoot Indian, of Calgary, Alta., has received a commercial pilot's license. He expects to engage in fur-trading by air in the North West Territories.

Airways Line Absorbed

Reported Change In Services Operating In Northern Alberta

Announcement was made at Montreal that Canadian Airways, Limited, had absorbed Commercial Airways of Edmonton, Limited, which inaugurated on December 10, 1929, a regular air-mail service between Fort McMurray, Alberta, and Akwila, North West Territories, at the mouth of the Mackenzie River.

In making the announcement G. C. Drury, secretary-treasurer of Canadian Airways, said the assets and liabilities of Commercial Airways were not being taken over, but that by arrangement with the government its air mail contract had been assured by the Canadian Airways, which had purchased five of the company's smaller aeroplanes.

Capt. R. W. (Wop) May, outstanding western pilot, will now fly for Canadian Airways, it is announced.

Silver Wires For Violin Bows

German States New Material Gives More Brilliant Tone

Violin bows, which have been strung with hair-like ever since the Middle Ages at least, may now have to yield place to a new form of an old material. A German violinist has been experimenting with bows strung with silver wires of hair-like fineness, slightly roughened on their surfaces to set the violin strings vibrating. It is stated that a sensitiveness and brilliance of tone are achieved that exceed the effects usually obtained with the old horsehair.—Popular Science.

Testing Canadian Seed Grains

A shipment of seed grains and grasses was recently sent from the University of Saskatchewan, Saskatoon, to a buyer in Chile, South America, who wishes to test out some of the improved varieties produced in Canada.

A machine has been invented to slice loaves of bread as they leave the oven in large bakeries, the slices being sealed in waxed paper packages for sale. This is said to save the waste of stale bread.

JESUS IN GETHSEMANE

Golden Text: "Father if Thou be willing, remove this cup from me: nevertheless not My will, but Thine, be done."—Luke 22:42.

Lesson: Luke 22:24-71.

Devotional Reading: Psalm 130.

Explanations and Comments

The Agony In The Garden, verses 39-44—Jesus went, as His custom was, unto the Mount of Olives, for He oftentimes resorted thither with His disciples. There He fell asleep (10:18). His disciples followed Him. When He reached the customary place of prayer, the Garden of Gethsemane, He said to them, "Sit here, pray ye that ye be not led into temptation; that ye be not tempted to forsake Me. When the moment of arrest came, prayer had not been the Master's custom, strong, and frequent lack of prayer His eleven disciples were frantic and cowardly.

And Jesus went a stone's throw away from His waiting disciples.

"It was but a stone's throw, and yet an infinite gulf lay between Him and them. And so it is always in human life."

"...We are in the garden of Gethsemane, the most blessed places of our life alone. We can bear no witnessess without the agony of life; gathering around us the greatest needs of men beyond the kind gaze of friends, beyond their pity and their help, when the great transactions of life are on us, and, indeed, when far from us our Lord passed from the loud life of the world into the silent places of the infinite and the eternal!"—W. J. Dawson.

And He kneeled down and prayed, saying, "Father if Thou be willing, remove this cup from Me." The portion of the lesson omitted in the portion of judgment; in Psalm 23:5, of mercy of blessing; here, of suffering and bearing the cross.

"Nevertheless, not My will, but Thine be done." Jesus prayed. "As Christ was God and man, there were two wills, the human will and a divine will, and the former did not always conform itself to the latter, without an infinite struggle; compare John 5:30; 6:38."

"...let it now follow after Thee,

To suffer, pray, and conquer still,

Because I do my Father's will."

Friend Who Failed, verses 45, 46.

"And when He rose up from His prayer, He sent unto the disciples to send them away; for it was now noon, Matthew and Mark speak of two other prayers, each following a turn to the other; for sympathy, Jesus had foreseen His share in the approaching tragedy. As He partook with them of the Last Supper He told them explicitly that one of them would betray Him, and all would deny Him, that all would forsake Him. On entering the Garden He addressed His three apostles, Peter, James, and John, to keep guard while He went farther on and prayed. How sorely He needed the comfort of their sympathy, for when He had fallen, He failed Him just when He needed them the most. "On returning He found them sleeping for sorrow. A strange condition of mind you will often have difficulty in understanding, that who has ever experienced the stupefaction which kind nature sends to the soul, who has borne the utmost that can be borne."

"Why sleep ye?" Jesus said to His disciples: "rise and pray that ye enter not into temptation."

Artificial worms that bear a remarkable resemblance to the genuine have been made for fishermen. They can be cut into desired lengths.

A scientist estimates that the earth's atmosphere contains 4,000,000,000,000 tons of nitrogen.

Norway Would Stop

Wilkins' Sub Journey

Government Considers Expedition

Unnecessary Risk of Human Life

The Norwegian Government may take active measures to prevent Captain Sir Hubert Wilkins from making his projected journey to the north pole in a submarine, it was stated in an Exchange Telegraph despatch from Oslo.

The message quoted the Oslo newspaper "Abberfeldybladet" as saying the government considers the expedition an "unnecessary risk of human life," if the Wilkins' expedition calls for rescue. Norway, like the U.S.A., the despatch said, the government plans to enforce the regulations enabling it to exercise definite control over all Arctic expeditions starting from that country.

Have Completed Trials

Canada's Two New Destroyers Will Soon Be Commissioned

"Skeens" and "Saguenay," have completed their power trials.

The "Saguenay," destined for service on the eastern seaboard, will leave for Canada next week, while James under Commander Ferenc Nelles.

The "Streets," named after the river in British Columbia, is destined for service on the Pacific Coast, and will leave Portsmouth for the Pacific about 10 days after the "Saguenay," under Commander V. G. Brodeur.

The new destroyers will replace the "Champlain" and "Vancouver," loaned to Canada by the Royal Navy during the construction of the new vessels.

Jungle Broadcast

Roar Of Wild Animals In Africa Heard By Radio In England

A lion roaring in the jungle in British East Africa was heard by British wireless listeners with short-wave receivers recently, when a broadcast from the microphone in the wilds of Kenya was relayed from Nairobi on a wavelength of 49.5 metres.

The apparatus was installed at a jungle hideout, pool, and although the roar an animal's nightingale, did not live up to expectations—he must have been stricken with microphone shyness—the calls of wild birds and the grunting of animals formed a weird chorus. It was fascinating to realize that the sounds came actually from the real jungle and not from an enclosed zoo.

Second Hundred Years Hardest

That the second hundred years are the hardest is the opinion of Miss Ann Stanwell of Mansfield, England, who also celebrated her 100th birthday recently. She said that she had been married and the century mark she had been attended for the first time by a doctor, had taken her first dose of medicine and had put the washing out for the first time. Then she took her first vacation trip.

"Why is it that the modern young man never gets up at dawn to renounce the girl of his heart?" asks a woman novelist. Probably because the girl of his heart isn't home yet.

A scientist estimates that the earth's atmosphere contains 4,000,000,000 tons of nitrogen.

Twenty-one times as much plant food is removed yearly by soil erosion as by crops.

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CHAPTER XVIII.—Continued.

In his surprise Nick stared at her so intently that she flushed, and sat a little straighter in her chair.

"That's mighty thoughtful of you," he said at last, "but I'd hardly like to accept so much from mere acquaintances."

"Oh, that's not trouble you! They're only too glad to take along an attractive man. It won't cost you a penny stock. You don't mind my meeting that do you? I know such things have to be considered. The Myers are tremendously wealthy, and they are constantly inviting people on trips like this. They prefer it to hotel life. I think it would be almost wicked to let slip the chance. You're not likely to run into such a thing again."

It flashed through Nick's mind that this was a very kind and tactful thing for Angela Halliday to do. She realized that he couldn't afford much sight-seeing, and that such a trip would mean a great debt to him. In a moment of impulsive enthusiasm he had written her a note: "I don't know how to thank you. Can you give me twenty-four hours to think it over?"

Angela smiled.

"That's just what I can't do. You see, if you just go there's someone at the Titchfield they mean to ask. He's leaving at once, and you have to speak to him tomorrow, after I bring back your verdict. However, I'll give you the evening to mull it over; but I warn you, I won't miss the time of your life if you refuse!"

"I can believe you! It's a marvel how quickly you act. And you have the talents just to give it to me!"

He was honestly touched. Angela saw, and took advantage of the fact.

"I'd do more than that for a good friend like you, Nick," she said, with obvious sincerity.

"Well—" He arose slowly, and pulled back her chair. "I'll let you know in the morning. Would you like to walk a bit before dark—or are you tired?"

"Let's walk by all means. Can't we get somewhere by ourselves?"

It was dark when they returned, and strains of music were wafted from the ballroom. They stood on the veranda, looking in at the gaily lighted scene. Not many were dancing, but the floor, smooth as a mirror, was too much for Angela.

"Let's dance. You do dance, don't you, Nick?"

"Try me and see. We dance, you know, even in Bakersville. Not that I ever went to dancing school. My Uncle would have vetoed that; but I'd have danced. Angela, had I been born on a desert island. It's the music that was born in me, I suppose. That's

CORNS
Lift off - No Pain!
QUICK RELIEF

Just a drop or two of Putnam's on any sore corn and out comes all the pain. The corn shrivels up and drops off. No scar, no pain, no pinching from tight shoes. You can dance or walk all day. Use Putnam's Corn Extractor. Satisfaction guaranteed. Sold by druggists everywhere.

PUTNAM'S

W. N. U. 1891

a wait! Have you forgotten how to wait in these jazzy days?"

"Try me and see," echoed Angela, with a soft laugh.

Between strolls through sweet-scented shrubbery, they danced, till a tired orchestra put up its instruments for the night.

"Have you decided?" asked Angela, as they stood together drinking in cooling breaths of the soft, night air.

Nick looked at Angela, and from Angela to a vista of what seemed at that moment an enchanted earth. It would be wonderful indeed to set sail upon it—to go to "the ends of the earth" as he had meant to go five years before. And John Maxwell had told him to take his time. As for Gay, she wouldn't have him miss it for a kingdom. If there were time to consult her—but there!—there wasn't. He must decide himself. And he'd be a blooming idiot to let such a chance slip by. It would mean only a month. Angela had said they would arrange to drop him somewhere. To be sure, "somewhere" was rather indefinite, but there were ports no farther from New York than Kingston, and no doubt it could be arranged.

Nick was torn in half. The old love of adventure was back, reluctantly urging. His eyes met Angela's, blue and wistful in the starlight.

"I'd love you to go, Nick."

He smiled. What a nice little thing she was! Gay was all wrong about her. She'd see it, too, when he told her how Angela had crossed the island just to give him this wonderful opportunity. Why, she was kind! Perhaps she was lonely—unhappy—and he seemed like an old friend. He—

"Well?" Angela insisted.

"I'll go," said Nick.

He squared his shoulders, as if in relief at the decision.

Angela said: "That's splendid! We'll see that you don't regret it. I must say good-night now, Nick. I'm taking the early train and I'm rather tired. You've given me a beautiful evening. Your dancing was—something to dream about."

"Not a nightmare. You won't be up when I leave, so I'll say good-night."

She smiled as they moved toward the door.

"Not a nightmare. You won't be up when I leave, so I'll say good-night."

He had taken her hand, and that soft, white hand that Gay had once trembled with regretful pain.

"Good-night; but it's not good-bye. I'll have breakfast with you, of course, and see you off. I do most of my sight-seeing in the evenings."

He watched her step up the stairs, where, turning as she reached the top, she waved farewell. Nick smiled, and went out again on the cool veranda, seating himself in a secluded place, the better to drink in the beauty of the tropic night.

Now that Angela was gone he felt suddenly dazed at this sudden change of plan. It was as if a fairy god-mother had appeared before him, and as suddenly vanished. He wondered, as the thought of home came back again, if his decision had been wise. There was yet time...

"What is the matter with me?" he mused. "I change about with every wind like an infernal weathercock."

While Angela was talking I felt that it would be absurd to refuse the invitation; now, when I remember how good it was, I feel I must do something for her. This will mean giving up our weeks at camp next fall. It doesn't seem fair to Gay. She needs a change as well as I; and I've had a bally month at the office, and from wind-swept sun-scorched cities and from winter sunlight everywhere in middle and higher latitudes."

He sat quite still, looking off at the stars—the then up at the stars.

Oh, it would be glorious to cruise in these beautiful blue waters!" he thought. "I'd see things I never dreamed of seeing. Still—the time will seem horribly long to Gay, back there in Bakersville doing the same old stupe. I wonder if it isn't my duty to go home? What was it my mother said about the straight and narrow way that I must tread if I were to be happy? Perhaps my real happiness doesn't lie in the room home. It will be lonely to see Gay again to tell her everything. And the kids—"

"I bet they'll be glad to see their dad! I wish I knew what to do. What's the matter with my hands?"

He arose impatiently, pacing up and down in the starlight. A sleepy bell-boy looked out, and Nick faced suddenly about.

"I must go up to bed. I'm behaving like a vacillating woman. Perhaps the morning light will clear my brain."

It did. He knew, when he awoke, that he was going home. He was sorry to disappoint Angela, but he would let her know how greatly he appreciated her kindness; and after all, it couldn't make any real difference to her whether he went or not. He whistled as he dressed—descended hurriedly fearing he was late; but as he passed the desk on the way to his

Feel Young Again Enjoy Hard Work

With Make Use Of Tides In Lifting Sunken Vessels

If ambition counts for anything, several of the 160 major ships wrecked in Alaskan waters and even the "Lusitania" may be raised to the surface, with resulting recovery of

People who take Kruschen Salts in a glass of hot water every morning won't have headaches, and may always feel fit, energetic and free from flatness, constipation and unpleasant breath.

They have no poisons in their system because the action of Kruschen Salts on the liver, kidneys and bowels causes perfect and regular elimination; the glands, if properly stimulated, will enjoy a new lease of life; the heart will beat more easily.

Curtis declared that after he completes the job, he may lay in a supply of ship salvaging equipment, and go into the business on a large scale, first salvaging other wrecks in Alaskan waters, then moving to other parts of the world.

He plans to let nature help him raise the "Islander" in this manner: He will use a diving bell to place cables under a ship, 20 to each side and leading to a barge 45 by 285 feet. Winches will clinch up the cables to low tides and Curtis figures that the barge will lift the hull when the tide rises. This operation will be repeated, and the barge will be towed toward shore, until the sunken ship is dragged to shallow water.

"The 'Islander' was believed to have carried more than \$1,000,000 in gold dust and nuggets.

early breakfast, the clerk stopped him.

A note for you, Mr. Hastings. Mrs. Halliday left it."

"She's not gone?" asked Nick, astonished. "She was taking the early train."

"Guess you made a mistake, sir. She was booked all the time to go by automobile. Started at six-thirty."

"I—I must have misunderstood her," said Nick dazedly.

He walked up to the plaza to read his note:

Dear Nick: Hope you didn't rise early on my account. I've decided to go by auto, and thought best not to disturb you by my change of plans. Please you to call me sensibly about the trip, and do arrangements for your business within a week. I'm so happy to think you're joining us. It makes lots and lots of difference to me. Nick, a friend like you, Angela.

"Well?" Angela insisted.

"I'll go," said Nick.

He squared his shoulders, as if in relief at the decision.

Angela said: "That's splendid! We'll see that you don't regret it. I must say good-night now, Nick. I'm taking the early train and I'm rather tired. You've given me a beautiful evening. Your dancing was—something to dream about."

"Not a nightmare. You won't be up when I leave, so I'll say good-night."

She smiled as they moved toward the door.

"Not a nightmare. You won't be up when I leave, so I'll say good-night."

He had taken her hand, and that soft, white hand that Gay had once trembled with regretful pain.

"Good-night; but it's not good-bye. I'll have breakfast with you, of course, and see you off. I do most of my sight-seeing in the evenings."

He watched her step up the stairs, where, turning as she reached the top, she waved farewell. Nick smiled, and went out again on the cool veranda, seating himself in a secluded place, the better to drink in the beauty of the tropic night.

Now that Angela was gone he felt suddenly dazed at this sudden change of plan. It was as if a fairy god-mother had appeared before him, and as suddenly vanished. He wondered, as the thought of home came back again, if his decision had been wise. There was yet time...

"What is the matter with me?" he mused. "I change about with every wind like an infernal weathercock."

While Angela was talking I felt that it would be absurd to refuse the invitation; now, when I remember how good it was, I feel I must do something for her. This will mean giving up our weeks at camp next fall. It doesn't seem fair to Gay. She needs a change as well as I; and I've had a bally month at the office, and from wind-swept sun-scorched cities and from winter sunlight everywhere in middle and higher latitudes."

He sat quite still, looking off at the stars—the then up at the stars.

Oh, it would be glorious to cruise in these beautiful blue waters!" he thought. "I'd see things I never dreamed of seeing. Still—the time will seem horribly long to Gay, back there in Bakersville doing the same old stupe. I wonder if it isn't my duty to go home? What was it my mother said about the straight and narrow way that I must tread if I were to be happy? Perhaps my real happiness doesn't lie in the room home. It will be lonely to see Gay again to tell her everything. And the kids—"

"I bet they'll be glad to see their dad! I wish I knew what to do. What's the matter with my hands?"

He arose impatiently, pacing up and down in the starlight. A sleepy bell-boy looked out, and Nick faced suddenly about.

"I must go up to bed. I'm behaving like a vacillating woman. Perhaps the morning light will clear my brain."

It did. He knew, when he awoke, that he was going home. He was sorry to disappoint Angela, but he would let her know how greatly he appreciated her kindness; and after all, it couldn't make any real difference to her whether he went or not. He whistled as he dressed—descended hurriedly fearing he was late; but as he passed the desk on the way to his

GOVERNMENT C.N.-
VERSION BONDS

One of the features of the new government conversion loan that seems likely to appeal strongly to holders of the Dominion Government bonds maturing in 1931, 1932, 1933 and 1934, is that the new bond offered in exchange not only retains for the holder all the privileges of his own bonds, but provides for him an investment of the highest grade, and one that will have a lifetime of at least fifteen years after his present bonds have matured. That is, none of the valuable privileges that were accorded during the war years, when the price of money was much higher than it is today, is taken away. If he holds the War Loan bond maturing in 1931, which carries a 5% interest rate, he will receive a similar rate of interest on his new bond up to the date of the maturity of the 1931 issue. So with the Victory Loan bonds maturing in 1932, 1933 or 1934, all of which carry interest rates of 5½% that reflected money conditions prevailing during the war years of 1917 and 1918, and the year afterwards, 1919. The new bond that is offered to him in exchange for what he now holds will carry not only what may be called its regular interest rate of 4½%, but will provide for the additional interest rate of ½% in the case of the 1931 bonds, and of ½% per annum in the case of the 1932, 1933 and 1934 maturities.

After the dates of maturity on the outstanding bonds have been reached, the interest rate will revert to the prevailing rate of interest on these high grade bonds, namely 4½%, and continue up to the maturity of the conversion bond. It therefore follows that anyone who holds the bonds with a higher rate of interest than is covered by the new "conversion bond"

will carry for its lifetime at 4½% interest rate, may make the exchange at once and still be assured of the full rate of interest he would receive if he held his present bonds until their maturity.

In the two of the four groups of outstanding Dominion Government bonds that is sought to convert into the new long term issue, there is a tax-exempt feature that is highly vaunted, at least by those with substantial incomes, and that has resulted in a higher price being paid at all times for these bonds, namely, the 1931's and the 1933's. The 1933's were issued during the second Victory Loan campaign, in 1918, and the tax-exempt feature was continued, as had been provided in the 1917 Victory Loan issues, in order to make the bond more attractive, and thus insure a larger subscription. The total subscription of that year, 1918, amounted to over \$600,000,000. In order that the holders of what is known as the War Loan bond of 1931, as well as the Victory Loan of 1933, may not be making a sacrifice in exchanging their bond for the new conversion bond, the department of finance at Ottawa has provided that the interest to be paid on the new bonds—in the one case up to the end of 1931, and in the other case up to the end of 1933—may be regarded as exempt for income tax purposes.

Thus, both in regard to the higher rate of interest carried by the bonds, and in the tax-exempt features of two out of four of the bonds whose conversion is now being urged, the holders will retain all the advantages that now rest in the older bonds, and in addition will have an investment that will continue for a period of twenty-five years (or fifteen years at least if it is decided later to redeem the new bonds), and at this time the rate of interest to be paid on the new bonds of 1½% per annum represents the maximum rate now being paid on the highest grade of Dominion Government or Provincial Government bonds being offered to the public.

Mere Man: "I want to get a present for my wife."

Sweet Young Thing: "Would you like to see something nice in silk things?"

Mere Man: "Why—er—er, yes. But let's tend to the present first."

Thumb Sketches
By Cy

Golf

No game, with the exception of billiards and snooker pool, is as exclusive of so much socializing and at the same time provocative of such a variety of emphatic language as is this game of golf. (If you want to be up-to-date imitate the man from John O'Groats and say "golf")

But golf is more than a stimulant of satisfaction and emphatic language. It has become a serious contender with football for first place as the source of exaggerated yarns and stories of impossible feats.

You've heard of the golfer who killed a bird on the fly with one of his take-offs; and then comes along the story of the other chap who killed two birds in the same way. The stories of "a hole in one" are innumerable, here are two of the latest—the latest so far as I have heard, at any rate.

K. G. is a golf nut, or somebody else for that matter, on one of the Toronto courses, made a beautiful drive for the 18th hole. A hundred and fifty yards from the mat the ball hit a rock in a bunker, rebounded high over the mat and dropped gently into the hole No. 1 green, which lay exactly 90 yards in the rear.

An amateur golfer from Beauville, P.Q., or some place in that part of the country, was number one when the story of this remarkable performance (7) was related. Whether it was the result of a desire to push Toronto into the shade as a golfing-city, or the association of ideas, or of a vivid and stimulated imagination, I do not know, but the story was told as the Queen's own. To this day, Pierre, an old friend of mine, was an enthusiastic golfer, but as a hooker and slicer he had anything I ever saw beaten forty ways. On one occasion he sliced a drive so badly from No. 7 mat that it took a beautiful curve round to the right and dropped into the hole on No. 12 green.

"Well," said one of the party whose home is beyond the Atlantic, "You Canadians fluke some wonderful feats in golf, but when the decisions are being made for the big cash prizes at the World's Grain Exhibitions, it's different." Regrettably in 1930, they won't compete.

Our good friend from across the water right, was clearly the responsibility of every Canadian to select the classes from the prize list best suited to the crop he grows, then select the best sample he has for his exhibit, make entry at once and prepare to defend his title. Royal Regin, in 1930, was a champion golfer, but as a hooker and slicer he had anything I ever saw beaten forty ways. On one occasion he sliced a drive so badly from No. 7 mat that it took a beautiful curve round to the right and dropped into the hole on No. 12 green.

"Well," said one of the party whose home is beyond the Atlantic, "You Canadians fluke some wonderful feats in golf, but when the decisions are being made for the big cash prizes at the World's Grain Exhibitions, it's different." Regrettably in 1930, they won't compete.

THE 1931 CENSUS

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, May 31.

11 a.m.—SENIOR SCHOOL

2 p.m.—JUNIOR SCHOOL

7.30 p.m.—PUBLIC WORSHIP.

"A Service of Praise." The choir will give a musical service. The service which has been arranged by Mr. Smith, will be carried through without the assistance of a minister. This service will also be unique in that there will be no sermon.

The pastor, who is attending conference this week, expects to be back on Wednesday, June 3rd.

ST. LUKE'S, BLAIRMORE

A. S. Partington, Vicar

Services Sunday, May 31st.

Tuesday—Junior Guild to meet at the home of Mrs. Hills at 4:15 p.m.

Services Sunday, May 31st.

Sunday School at 10 a.m. Evening at 7 p.m.

Wednesday—Junior Guild to meet at the home of Mrs. Hills at 4:15 p.m.

Annual value of crude bullion gold in Ontario for the first quarter of 1931 was \$451,745 as compared with \$352,235 for the same period of 1930, an increase nearly 22%. If this continues all previous records of output are likely to be exceeded this year.

Total output of the Boy Scouts Association of Canada has been offered to and accepted by E. W. Beatty, chairman and president of the Canadian Pacific Railway, who has been in the saddle since he was born, and has been recognized all over the Dominion.

John Minard, section hand with the Canadian Pacific Railway for many years and pensioned at the age of 73, celebrated his 105th birthday April 21. He has been a gopher, can well, sleeps well and enjoys life. He has no prescriptions for exceeding the century mark.

Sponsored by the Alberta Motorcycle Association, the Western Canada Motorcycle and Climbing Club will be held in Banff in the Canadian Rockies on May 21 and will be followed the same day by the Banff annual regatta.

A shipment of 80,000 salmon eggs has recently been awarded to the Canadian Hatchery Farm Lands, Restoule County to receive treatment prior to being deposited in the Nipigon River as a part of the 1931 programme for restocking New Brunswick fishing waters.

"Canada is not to be outdone in the voices of His Excellency the Governor-General and Rt. Hon. R. B. Bennett, prime Minister of the Dominion, May 15, in endorsement of the Canadian Red Cross through stations linked by the radio broadcast transmission system of the Canadian Pacific Railway Company's Telegraphs.

In the last analysis the railroad safety movement's success is traceable to the fact that every railroad worker is constantly reminded that safety is paramount. Safety practices have become habitual, but they must be kept up to efficiency. Railroad passenger service is now more efficient as well as safer than ever before, says a prominent United States newspaper.

The new 6½ hour service between Montreal and Toronto both ways, which came into operation on Canadian Pacific lines end of April, has proved highly popular with travel and heavy traffic on the trains reported. Ottawa has also been brought half an hour closer to Montreal and passengers for Quebec have had 15 minutes clipped from the time of the journey.

Possibly of the reduced weekend fares which went into effect May 1 on all Canadian Pacific lines was assured from the start, according to reports from traffic officials, a saving of approximately 33%, to the travelling public with reduced fares available from noon Friday to noon Sunday and return portions up to midnight of the Monday following.

The schedules which will be used in the 1931 Census have been approved, printed and delivered to the Census Enumerators, and are in readiness for use in the Census which begins promptly on June 1st.

The two main schedules of the Census relate respectively to Population and to Agriculture. The Population schedule will follow the main lines of previous years, though there are a few rearrangements and improvements.

Among the latter a practically new section will deal with Unemployment. The existing situation in this respect on the Census date will be shown, and the record for each worker will also be obtained over the past year. The results should prove of much practical benefit in the study of causes and methods of alleviation.

Some rearrangement of the schedule will also banish the fear that has been entertained lest Canadian nationality will not be recorded in the fullest possible way. Canadian national status will be treated in a column by itself. In addition the schedule calls for birthplace, year of immigration, year of naturalization and also the birthplace of the father and mother of each person.

There will be a supplementary schedule dealing with the blind and deaf-mutes and the usual forms for dealing with closed houses, absences, etc.

The Agricultural schedule has been very considerably improved as compared with any previous Census. In 1921 the International Institute of Agriculture, which is representative of over 60 countries, undertook a special investigation as to the best methods, schedules, etc., for use in the taking of an agricultural census. A special staff of experts was engaged on this study for nearly three years, in the course of which a personal visit was paid to every important agricultural country in the world—74 in all—for the purpose of examining requirements and methods on the spot. The results of this inquiry have since been published and have been made use of extensively in the drawing up of the Canadian schedule, in addition to which the Bureau of Statistics has been in touch with Dominion and provincial departments of Agriculture and other experts throughout Canada and the United States. Altogether no less than 175 organizations have been consulted. The schedule, it is hoped, will collect a new wealth of information on the basic industry of the Dominion.

A new feature of the Census is a brief schedule that will be filled in for every trading establishment in Canada. The data on these schedules will be made the basis for a more intensive study of correspondence, the whole to result in a scientific study of distribution in Canada, on which comprehensive data has never previously been available.

In the case of institutions, also, such as hospitals, gaols, asylums, child welfare institutions, it is hoped to follow up the ordinary census enumeration with more intensive studies, having for object the throwing of new light on the more important social, distinguished from the purely economic, problems of Canada.

Accompanying the schedules is an extensive book of instructions, running to some 150 pages, which gives categorical explanations to the enumerators as to the exact procedure to be followed in connection with each and every question.

Whilst the Canadian Census now contains certain fields of inquiry which is a result of the growth of statistical organization under the Dominion Bureau of Statistics, is being done more satisfactorily from year to year. Industrial production, for example, is now handled annually by the Bureau, the scope and method laid down in the schedules for the approaching census will represent a scale of investigation more than ever commensurate with the growth of the country and the increasing complexity of its problems.

They Melt in Your Mouth

Smooth, rich chocolate shortbread and a cream chocolate filling, will make you want more and more and more! Ask your grocer for

Paulin's Venetian Wafers

Harry Wright observed that he must send for a lie detector.

"What's that?" inquired Elizabeth Needham, negro maid.

"Lie detector," Wright repeated. "It's a machine that shows when a woman lies."

"You don't need that, boss," the maid said. "Ah can find dat money without any detectah. Ise a necromancer."

She went into a seance. "Mah necromancy tells me to look under this rug."

And there it was.

Canada and World Disarmament

During this present period of world-wide business depression some people, good people too, are heard to thoughtlessly remark that the only way out will be another great war; that such a struggle will be the ultimate outcome of the world's existing difficulties. Such a statement should be the last to pass the lips of any person. Another war, instead of being a cure, would be the final world catastrophe.

More contributing causes there may be to the economic traits of today, but the most serious, all the trouble is to be found in the Great War, 1914-1918. That titanic struggle laid the foundations for what has since taken place. In fact, all students of history fully realize that our present experiences are but a repetition of those which followed the Napoleonic wars. Another great war would have exactly the same results, only worse, because modern world conditions only serve to intensify and prolong such disturbances when they do occur.

Instead, therefore, of even thinking "war," the peoples of all nations should think and talk of nothing but permanent peace, and direct all their energies to the consummation of that ideal.

What is the great financial burden resting on the shoulders of the Canadian people today? It is the debt created by the Great War. The public debt of Canada created in the upholding of this Dominion from before the time of Confederation down to 1914 calls for annual interest payments of only \$12,893,000, or only 3½ per cent. of our national expenditures, and approximately \$1.30 per head of our population. On the other hand, interest charges on the public debt created since 1914 amount to \$108,857,000, or 27% of our total expenditures, and more than \$10.00 per head of population in each and every year.

But this is not all of the war burden. In addition to this 27% for interest on the war debt, Canadians are required to devote another 12.46% of all expenditures for services arising out of the war, such as pensions, after care of soldiers, etc. That is, out of every \$100 expended by the Government of Canada each year, \$39.42 is directly attributable to the Great War. This is the burden which ties the hands and cripples the efforts of our national government.

Every \$100 expended by the United States \$60.00 is spent because of war, past, present and future. The war expenditures of Great Britain are in like proportion, or possibly even heavier.

In a recent speech before the International Chamber of Commerce, meeting in Washington, President Hoover declared that the present world depression is largely due to the destruction of life and property, the great majority of which was caused by military operations during the Great War; and he declared that one major accomplishment which international co-operation could effect in reducing tax burdens, removing a primary cause of unrest, and establishing greater confidence for the long future, was "the limitation and reduction of armaments." President Hoover proceeded to back up his assertion with these startling facts and figures:

"The world expenditure on all arms is now nearly five billions of dollars yearly, an increase of about 70% over that previous to the Great War. We stand today with nearly 5,500,000 men actively under arms and 26,000,000 more in reserve. These vast forces, greatly exceeding those of the pre-war period, still are to be mobilized, even though twelve years have passed since the Armistice was signed, because of fear and of inability of nations to co-operate in mutual reductions. Yet we are all signatories to the Kellogg-Briand Pact, by which we have renounced war as an instrument of national policy, and agreed to settle all controversies by pacific means."

Nevertheless, in face of such a declaration from President Hoover, and also in the face of a huge national deficit of over \$800,000,000 which is enfolding economies in practically every department of government, the United States budget for 1932 provides for an increase of \$26,000,000 in prospective outlays on military-naval expenditures.

Canada, too, is a signatory to the Kellogg-Briand Peace Pact, and as such this Dominion is steadily reducing its expenditures for defence purposes; we have no offensive services. Expenditures for National Defence by Canada are the smallest of any country in the world having anything like the same population or degree of wealth. They total only 5.06% of our annual expenditures; in other words, about two dollars per head of our population.

While, therefore, this Dominion is not at all blameworthy for the present state of world armament, the Canadian people should be staunch supporters of further disarmament everywhere as a step towards permanent peace. As a people we cannot remain indifferent to the attitudes of other nations, and unless a general reduction in armaments takes place another world tragedy will be enacted, and into it we may again be drawn as active participants, and in any event cannot escape its disastrous effects.

Canada On Air Highways

"Canada is on the air highways which will connect the three great centres of commerce in the Americas and North America; and it is up to Canadians to see that the Canadian section of these great air routes are developed and operated by Canadians," said General J. H. MacBrien, president of the Aviation League of Canada, in an address at Windsor, Ontario.

Fragments of cotton cloth 5,000 years old, found in the ruins of a town in India, were examined microscopically, and the fibres were found similar to a kind of cotton still grown in India.

Smothering and Fainting Spells

Everything Would Turn Black
Mrs. Andrew Black, Harcourt, N.B., writes: "I had been troubled with smothering and fainting spells and everything in front of me would turn black, and I would fall down in a faint and be unconscious for several minutes. I did not know what to do, until one day I was reading where Milburn's Heart and Nerve Pills had helped many people and decided I would give them a trial. I took two boxes and found they help me wonderfully."

Unearth Ancient Treasures

Valuable Discoveries Made in Kish By Oxford-Field Museum Expedition

Jewelry worn at the Court of Nebuchadnezzar, magnificent sculpture of the Assyrian period and royal tombs over 5,500 years old have been discovered by the Oxford-Field Museum Expedition excavating at Kish, near the site of old Babylon. Dr. Stephen Langdon, Professor of Assyriology, Oxford University, director of the expedition, has sent a report to Sir Charles Marston, author of Essays on the Old Testament, who states that the jewelry is said to be worth several thousand dollars.

The expedition is working on three separate sites, covering thousands of years. Assyrian sculpture, dating from about 250 A.D., was found on the top layer above the great Temple of Nebuchadnezzar. The find of treasure from the Nebuchadnezzar period is substantial and includes solid gold ornaments.

"It will be of great interest to know just what has been found because the time of Nebuchadnezzar is one about which we are learning a great deal from recent discoveries, and excavation is supporting the old Biblical narrative to an extraordinary extent," said Charles Marston.

Below the Nebuchadnezzar Temple have been found a further series of Sumerian royal tombs. These are about 5,500 years old and the expedition is just beginning to explore them. Written tablets and cuneiform writings have been recovered which will probably shed light on the history of those times. Sir Charles adds: "It is especially interesting to know that the date of the floods has now been fixed at 3,400 B.C., so that these tablets are probably older still."

DRAPERY MADE NEW

When we resumed housekeeping a month ago I found my draperies had become creased from packing. I hung them out on the line, hoping to remove the creases, but forgot them. Then it was they became badly faded and sun-spotted.

"I was heart sick to dye them. My thoughts struck me to dye them, and as I used Diamond Dyes they look gorgeous and new. I have never seen easier dyes to use than Diamond Dyes. They give the most beautiful colors and are safe for washing or dyeing—and never take the life out of cloth as other dyes do."

Mrs. J. F. T., Montreal

INDUSTRIAL MANITOBA

Industry Gradually Taking Priority Over Agriculture in the Province

Bearing upon the recent statement of J. M. Davidson, of the Industrial Development Board of Manitoba, that industry is gradually taking priority over agriculture in the province, it is pointed out that Manitoba is rich in mineral resources, having more than \$600,000,000 in ore reserves, 137,000 square miles of timberland, 20,000 square miles of water surface. The province is also extremely rich in metallic and non-metallic minerals.

With an annual production of more than \$165,000,000, moreover, Manib's 130 industrial plants have a yearly pay-roll of \$35,000,000.

Persian Balm—the unrivaled toilet requisite. Equal to every delicate purpose, imparts health, charm and beauty to the complexion. Softens and beautifies the skin. Makes fleshly white. Cools and refreshes. Relieves pain and tension for feminine delicacy. Delicately fragrant. Swiftly absorbs into the tissues, leaving no stickiness. Persian Balm invariably creates a subtle elegance and charm.

CO-OPERATIVE WOOL GROWERS:

WOOL RECEIVING WAREHOUSES TO BE OPENED AT PORTAGE LA PRAIRIE AND REGINA

The Canadian Co-operative Wool Growers have completed arrangements for wool receiving warehouses at Regina, Sask., and Portage la Prairie, Man. Recent shipments of wool from June 1 to Aug. 1, 1931, a letter has been sent to the wool producers requesting that they forward their shipments to arrive at the warehouses between these dates. Reports show that the volume of wool handled in the past year was 1,038,205 pounds more than the objective for the year, which was 4,000,000 pounds.

APPLEFORD PAPER PRODUCTS LTD.

There will be apples this year on the 106-year-old Hudson's Bay apple tree, on the lower part of the barracks at Vancouver, Wash. The tree grew from a seed planted by a member of the Hudson's Bay Company in 1825, and seldom has missed a year in bearing. A. Quaraberg, horticulturist, said it very likely will bear a large crop this season.

More than 21,000,000 acres in Argentina were planted to wheat last season.

Flame from ethylene gas may be as hot as 1,975 degrees Centigrade.

The Census of Canada 1931

In the opening weeks of June every family and every home in Canada will be visited by a representative of the Government for the great national purpose of taking the seventh census of Canada.

The census is really a stocktaking. That is, it provides the information to enable the Government and others interested in the development of the country to formulate progressive policies for the happiness, comfort and prosperity of our people.

All the information supplied is strictly confidential, and the officers of the Government are subject to severe penalty if they disclose any of the information which is given to them by residents in the country, to any other than the Government.

Furthermore, it has nothing whatever to do with taxation, or military service, or compulsory school attendance, or immigration, or any such matter; and the Government itself cannot use it except for statistical totals.

The Government representative will put the same questions to all, and it is your duty as a resident of this country to answer promptly and truthfully. The Government is very anxious to avoid forcing anyone to answer these questions, but it is empowered to do so in the few cases where individuals may refuse.

Meets Second and Fourth Tuesdays at 8 p.m. in the Moose Hall. Visitors made welcome. W. W. Scott, Exalted Ruler; J. R. McLeod, Secretary.

FRANK OLIVER DOCTOR OF LAWS

Picture a young man of 27 years, guiding a plodding yoke of oxen a thousand miles from Winnipeg to Regina fifty-one years ago—a young man full of vigor and ambition, full of faith in the new western country to which he was conveying the type and press for the first newspaper in the North West Territories. Picture that lucky pioneer of 1880 as he appears today—Hon. Frank Oliver, 75 years of age but still vigorous and still surcharged with faith in his beloved west. The tribute which the University of Alberta paid to Mr. Oliver Friday last by conferring on him the degree of Doctor of Laws was well deserved. It was a tangible acknowledgment of a great Canadian's unselfish and continuous service to his country and to his fellowmen, and the Herald congratulates the recipient of the distinguished honor and congratulates the University of Alberta on its selection.

Dr. Oliver's career, in respect of his contribution to his country, might well serve to stimulate every young Canadian. It took courage to do what Mr. Oliver did in 1880, but all through his long and useful life he has been the embodiment of courage. He has put his service to his native land before every other consideration and has made repeated sacrifices in order that he might advance what he firmly considered were the best interests of Canada.

As early as 1883 he was a member of the North West Council and from 1888 until 1896 was a member of the Legislative Assembly. In the latter year he was elected to the House of Commons, and remained a member of Parliament for some 20 years. From 1905 until 1911 he was minister of the interior. Meanwhile he published the Edmonton Bulletin, which he had established in 1880, but was forced to relinquish this property several years ago.

Even in private life, Dr. Oliver continues to be a force and articles from his virile pen appear frequently in newspapers and magazines. Always he is striving with every atom of his energy to benefit his fellowmen.

So the tribute that is paid to him while he is still alive is a tribute which has far more force than any which may be paid after he has passed.

ed.—Hanna Herald.

The press of Alberta extends to Dr. Oliver its heartiest congratulations and is particularly proud of the fact that Dr. Oliver was the father of journalism in Alberta.

TEN COMMANDMENTS

FOR THE DAIRYMAN

Ten commandments which, if followed religiously, should aid dairymen in producing milk that is always clean, fresh and healthful, have been prepared by J. O. Toliver, secretary for the Colorado Agricultural College Extension Service. Toliver's long experience as deputy state dairy commissioner and chief inspector has familiarized him with varying dairy problems in the state. Here are his commandments:

1. Thy cow stable and corrals shall be kept clean at all times, and bad odors shall not persist therein, so that the milk inspector shall say to thy neighbors: "Surely, this man is a dairymen."

2. Thy manservant shall be healthy and shall be clean in all respects, and his hands shall bear witness concerning his work. Yes, cleanliness is next to godliness.

3. The milk thou sellest shall be cooled at once, after it is drawn from the cow.

4. Thou shalt keep thy plant clean at all respects; the ceiling, walls and floor shall bear testimony concerning thy work.

5. Thy product shall be fresh and well flavored. Verily, age is to be respected, but old milk will not be tolerated.

6. Daily thou shalt labor, washing and sterilizing thy milk bottles and equipment, so that it may be said: "Truly, this man is, worthy of his hire."

7. Use thine own milk bottles and cans; lest some man rise up against thee, and say: "Thou thief!"

8. Pasteurize, properly all milk purchased from other dairymen, because thou dost not know what care has been taken in producing it.

9. Thou shalt not strain dirty milk, nor milk which has been produced in an unclean place. Dirt shall be kept out of milk, not strained out. Yes, verily, dirt in milk is an abomination to mankind.

10. Thou shalt not water thy milk,

but shall sell a good, clean, well flavored, healthful product, which shall cause thy customers to rise up and bless thee.

COOLY HAPPENINGS

Mr. and Mrs. Ralph Easterbrook, of Calgary, were week-end visitors with Mr. and Mrs. Ed. Cowin and family.

Mrs. James Leigh and Verdun, of Calgary, were recent visitors to Cowley and Lundbreck.

Dr. and Mrs. Elliott, Mr. and Mrs. L. V. M. Peel, Mr. and Mrs. Logan and Mr. and Mrs. Sheppard and their families were among the many Corinnes who attended the Cowley sports.

W. Cochrane and M. Nicholson, who have been engaged in business for the past four years around Red Deer and Calgary, are returning to the district, locating on the Cole Sedgwick place up the South Fork, where they will engage in ranching. Many old timers will be glad to welcome them back to these parts.

W. F. Blackburn and family, accompanied by J. S. Swinney and Miss Swinney, of Fishburn, were Cowley visitors on Monday.

Mr. Goldie and Mr. and Mrs. Watson and baby, were week-end guests of Mr. and Mrs. Archie Swart and family.

Mr. Rodier, who has been employed as manager of the Royal Bank here for the past year, has been transferred to Calgary.

Father O'Dea left by train on Sunday night for a month's holidays in Eastern Canada.

The opening dance of the season at the Cascade Inn at Lundbreck Falls, held on Thursday night last, was well attended. First-class music was furnished by the Pincher Creek orchestra.

On the Cowley sports day, a refreshment booth was run by the members of the Roman Catholic congregation in aid of St. Joseph's church, when a neat sum was added to the funds.

A largely-attended dance was held in the I.O.O.F. hall on Monday night, sponsored by the sports committee, in aid of the Victoria Day celebration. Excellent music was furnished by Len Davis and his Royal Acadans.

A very successful Victoria Day celebration was held at Cowley on May the 25th. The day dawned bright and clear and continued fine throughout, making conditions ideal for the sports. An enthusiastic crowd of onlookers witnessed the races, which were won in the following order: one-mile Indian race, Three Persons, first and second; one-mile open, O. Bastine first, Nap Provo second; five-eighths-mile pony, McLaughlin first, Diamond second; half-mile Indian, O. Bastine first, Big Swan second; half-mile boys' pony, Hassett first, Gilchrist second; five-eighths miles open, O. Bastine first, Schnarr second; democrat race, Big Swan first, Provo second; saddle race, Tom Wildig first, Jack Graham second; consolation, M. Laughlin first, Diamond second; foot race Fournier first, Kerr second. Baseball (morning game) Bellevue won from Blairmore; second game, Coleman won from Hillcrest; third game, Coleman won from Bellevue. A large attendance of Indians from both the Peigan and Blood reserves were present. Several colonies of Doukhobors turned out, also with their quaint but picturesque dress added a touch of color to the crowd. There were eighteen hundred people present.

Church was over, the congregation filed slowly out and gathered in little chattering groups in the churchyard. Presently the vicar came up and joined a select little party. He introduced an old sea captain to the leading light of the village, a wealthy Mr. Smith. "You must have seen each other in church today," said the beaming vicar.

"Sure," said the old salt. "He was sleepin' in the next bunk to me."

Have you enough Life Insurance?

No matter how large or how small your estate, it will suffer heavy deductions before it reaches your wife or family. Doctors, nurses, hospitals, undertakers, lawyers, etc., not to mention succession duties, if the estate be considerable, will reduce the net amount payable to your heirs by anything from 10% to 25%. Take your pencil and try a simple sum in arithmetic, using an actual case as an example:

	Typical Case	My Case
Total face value of all my life insurance policies	\$5,000	\$
Estimated value of my real estate, securities and other assets	\$2,000	\$
Total	\$7,000	\$
Less 15% as indicated above	\$1,050	\$
Total estate (net)	\$5,950	\$
Invested in good securities at 5% this should yield my family an annual income of	\$297.50	\$

IS IT ENOUGH?

The West's Besetting Sin

If there is one besetting sin indulged in by the people of Western Canada it is the sin of impatience. Living in a new country, a country which fifty years ago was given over to roving bands of Indians, immense herds of buffalo, our people today, expect and demand all these services and accommodations, all these conveniences to build up and develop in older lands. It is a good fault to want the best there is in life for our children; it is a laudable ambition to work to secure such things; a proper spirit of discontent is all right, provided it is a proper spirit.

But in a vast extent of territory over which population is yet but thinly spread, where the element of time has not yet permitted that degree of productive development which leads to the accumulation of certain reserves of wealth, for people to expect to enjoy all those things which it is possible for older countries of large populations and centuries of accumulations to provide for their people, is not reasonable. Whatever we have must be paid for, and in the West we have not sufficient people nor sufficient wealth to pay for what we want, we must of necessity go without until such time as we are able to provide them. And to be discontented with our lot in the meantime is neither reasonable nor right.

For example. Good all-weather highways to serve all parts of Western Canada is the desire of everybody; it is a laudable desire. Efforts to realize it are being put forth, but people are impatient, and demand a shorter period of time in which the work that is being done is to be completed than the resources at the disposal of interest changes on cost construction and finance the carrying out of existing programmes of new construction.

There is nothing to be gained, and much to be lost by having the whole country criss-crossed with good roads, provided with telephone and electric power services, equipped with churches, schools and hospitals, and other services and conveniences now so generally regarded as necessities, if as a result of providing them the burden of taxation is so heavy as to drive the people off their land. All these things are worse than valueless if the people cannot maintain an existence to enjoy them.

To cite another example. Within the past two years there has been erected and equipped, in the Province of Saskatchewan, three technical schools, one at Regina, a second at Moose Jaw, less than 50 miles distant, and a third at Saskatoon, 150 miles away, each of which has cost half a million dollars, or a total of \$1,500,000. This large expenditure for purely technical education has been made in a Province where not 20 per cent. of the population lives in rural communities, and where constant stress is laid on the importance of the town and the yearning to retain the land.

The point is not that technical schools are not good and desirable things. No, the point is, are we not aiming to provide these good things before we can afford to do so, and to the extent that we mortgage our future in this way, are we not crippling our own efforts to provide and maintain something else much more essential and which would benefit a much larger percentage of all the people who have to bear the taxation burden? We are not trying to ape other and older lands in our impatience to have everything they have, which no doubt they can afford now after long decades of growth, but which we cannot afford because we are not numerous and wealthy enough to carry the resultant financial burden.

Few men and fewer women there are, but would like to live in a better house than they now occupy—if they could afford it, but knowing they cannot afford it they make the best of what they have. Many of them could have the finer houses of their dreams if they were prepared to mortgage their whole future for it, and, while living in it, denied themselves other things and other opportunities which would be better investments to be made.

Their impatience is just an aggregation of individuals who can have those things they are impatient to possess largely because other countries have them, but in their impatience, and unwillingness to wait until they occupy much the same position as those others who can afford these things, they plunge ahead and get them, then they must not be impatient of the taxes they are called upon to pay, nor resentful if, being unable to pay, they lose all they had accumulated in years gone by.

It is in times like these that heed should be given to such matters. The present is hard for most people, and in no small degree because of the mistakes of past, made individually and collectively. This present depression will pass; good times will come again. We must willy-nilly be patient now. But will the old impatience come back with renewed force? Will we as a people still insist on running before we really are able to walk? If so, we will stumble again and fall once more.

Rubber Lining Protects Steel

Perfected Surface Reats Abrasion Under Most Severe Conditions

When chemists discovered a method for attaching a rubber lining to a metal surface, they presented a new and valuable material to the chemical engineer for use in the vats, tanks, pipes, pumps, and so forth, in which he handles corrosive liquids. The rubber is applied effectively to the action of acids which would soon eat through the steel. Now this process of attaching a rubber surface to metal has been perfected to a degree which encourages its use to resist abrasion in some of the most severe service conditions imaginable.—Popular Science.

Italy has a football craze.

Dust Explosions

Warning Is Given Of Danger Lurking In Talcum Powder and Cornstarch

Don't light a cigarette just after using talcum or any other powder. Never leave the cornstarch box, the four tin or the oatmeal bag where they are likely to fall. That is, if you want to avoid the chance of an explosion.

These hints on dust explosions were given recently by David J. Price, chemical engineer with the United States Department of Agriculture, who was a delegate to the annual convention of the National Fire Prevention Association in Toronto.

He was pointing out that dust explosions were not confined to grain elevators as was commonly thought.

Was Weak and Run Down Could Scarcely Do Housework

Mrs. Edward A. Allen, Beazons, Alta., writes: "I would like to tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. I was feeling very much run down in health, and was so weak I could scarcely do my housework, in fact, I would have to lie down in the afternoon for an hour or so. I saw your Pills in the drug store and took a box home with me, and I was delighted with my renewed strength. I have recommended them to a neighbor and feel sure they will help her too."

Price 50¢ a box.

Sold by all drug and general stores, or mailed direct on receipt of price by The Milburn Co., Ltd., Toronto, Ont.

Greetings To Boy Scouts

Stirring Messages Sent Out From Earl Beasborough and E. W. Beatty

Stirring messages went forward recently to the Boy Scouts of Canada. One was from the Earl of Beasborough, Governor-General of Canada, on his assuming the position of chief scout for the Dominion. The other was from E. W. Beatty, president of the Canadian Pacific Railway, who recently became the first president of the Boy Scouts of Canada.

The Governor-General said: "I am eagerly looking forward to having associations for becoming acquainted both with Canadian scouts and Canadian scouting and of observing their progress." He was pleased that Mr. Beatty had consented to undertake the duties of president of the association.

Another name for a good citizen is "a good scout" wrote Mr. Beatty. "It is gratifying to think that so fine a movement as that of the Boy Scouts has captured the imagination of the youth of the world and has become so truly international," he said. For Canada it is peculiarly fitted, the campcraft which it teaches is so well suited to our geographical conditions. Nothing could be better than its goal of self-reliance, self-respect, unselfishness and the pledge to help others whatever it may cost."

SAVED IMPORTED DRESS

"After a little wearing, a lovely green robe—an import dress—lost color so completely that it was not worth saving, when a friend who had been in India asked me why I wasn't wearing it any more. On hearing the reason, she advised dyeing it and recommended Diamond Dyes. I made a sample strip, which turned out beautifully. I have a lovely new dress that really cost just 15¢ the price of one package of Diamond Dyes." "I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but never have a failure with Diamond Dyes. Their prices seem to be always so always go on smoothly and evenly. They never spot, streak or run; and friends never know the things I buy with Diamond Dyes are dyed red."

Mrs. R. P. Quebec

Unusual Cafe In London

Automatic Machines Will Serve Meals

Record Time

Five-minute meals will be the order of the day when London's latest speed restaurant is opened in the Strand. Not only will coffee, more than six soups, and all sorts of dishes be served through automatic machines. Soiled plates will be slipped into letter-box-like slots, and there is an ingenious arrangement by which customers can wash and sterilize their own glasses. "Soft" drinks, prepared through automatic machines, may be aerated if desired.

Customers simply slip their still drinks into a little machine, press a button, and the "still drink" becomes bubbly.

Because of regulations alcoholic beverages cannot be supplied through an automatic machine, and a barman has been employed to look after this department. Here, also, the highest standard will be insisted upon.

The restaurant is to be open day and night, week days and Sundays.

World's Smallest Dog

The world's smallest dog is said to have been acquired by the Maritzburg Museum. It is a dwarf brown and white pointer, and although it lived for three years it never grew longer than six and hair inches from nose to tail tip. His head was one and a quarter inches long and an inch broad, and his hind legs were slightly less than two inches long.

Asthma Is Torture.—No one who has suffered from asthma or the mother of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief given by the Marvelous Preparation, Dr. J. K. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. You are a sufferer do not delay a day in securing this remedy from your druggist.

Well-Protected Animal Park

Elsin Island National Park in Alberta, which contains one of the Government buffalo herds, is entirely surrounded by thirty-four miles of nine-strand bundle-wire fence; fireguards, sixteen feet in width, are ploughed along the park, both immediately inside and outside the fence.

Someone has succeeded in carrying 100 words on a grain of rice. We are in hopes it includes directions as to how to cook it. So few people can cook rice.

"Bumpy" air shocks an aeroplane harder than the bumps of fast landing, tests show.

The Child Grows and Matures

Necessity Of Careful Training In Early Childhood

(By John Burke Ingram.)

I once knew a boy who was unusually afraid of a policeman. Unreasonably because he was a good little boy and his family were decent people. One day that little boy's grandmother told him a story about another little chap who got lost and of how a policeman on the boat found him and took him home to his mother. This simple story completely destroyed the child's fear of policemen. It made him ready to understand that the policeman was on "his side" and his duty was to protect him and his mother and father against people who were not willing to behave themselves.

I introduce this question because it illustrates the necessity of teaching a child carefully, if he is to be a healthy citizen and a good citizen. There are so many things the parent should do; simple in themselves, if he or she will only take the trouble to do them, it may assist the growing child to be both.

Lying is a problem, and many a conscientious mother has had her heart almost broken because little Bobby sees all sorts of horrible accidents and sees tigers walking down the street, and, perhaps, if he is a belligerent little boy, is continually threatening six big men on the way home from school. Like like that, however, are, in the mind, quite harmless, least and if it were not for this capacity for harmless lying, there should be no books written, no pictures painted, nor music written.

Of a different story however, is the lie which is told to avoid punishment, or to secure some favour, a personal lie in other words, and these must be stopped. It is easy to draw a distinction between a "fairy tale lie" and a "wicked lie" and in combating the lie a positive worship of truth may be included as a preventive. Stories of men who refused to lie even if it meant pain or death, will be listened to eagerly, for children are natural hero-worshippers and it is a good thing if a parent has imagination enough and interest enough to place worthy objects of hero-worship in the mind of the youngster. We are getting away from our old ideas that children should be seen and not heard, and that a child should never, have his own way. We feel that a child should have his own way just as a growing plant has its own way, to push its head towards the sun. But once again, to remain for a moment in the vegetable kingdom, as the tree is bent the vine's inclined, and a really active and understanding parent will give a child's efforts into the right channel so tactfully that the youngster will scarcely realize that it is not his own ideas that he is carrying out.

Customer simply slip their still drinks into a little machine, press a button, and the "still drink" becomes bubbly.

Because of regulations alcoholic beverages cannot be supplied through an automatic machine, and a barman has been employed to look after this department. Here, also, the highest standard will be insisted upon.

The restaurant is to be open day and night, week days and Sundays.

Protection For Miners

Safety caps and safety shoes are

soon to be added to safety lamps as standard equipment in the Cape Breton collieries. The caps are of metal and are designed to protect the head from frequent bumps. The shoes will protect the feet from falling stones.

Recipes For This Week

(By Betty Barclay)

GOLDEN COCONUT SHORTCAKE

8 thin sponge cake.

3 orange sections free from membrane.

½ cup coconut, southern style.

Allow two slices sponge cake for each serving. Place first slice of sponge cake on plate, cover with orange sauce, orange sections, coconut and additional orange sauce. Cover with second piece of sponge cake and top with orange sauce and orange slices. Sprinkle with coconut. Garnish with whipped cream around edges if desired. Serves 4.

STRAWBERRY WHIP

1 package strawberry - flavored gelatin.

1 cup boiling water.

1 cup strawberry juice.

1 cup strawberries, crushed and drained.

½ cup sugar.

Dissolve gelatin in boiling water. Add strawberry juice. Chill. When slightly thickened, add whipped cream, well beaten, of consistency of whipped cream. Fold in strawberries and sugar. Turn into mold. Chill until firm. Unmold. Serves 8.

It Bites Pain Away.—When neuralgia racks the nerves or lumbago cripples the back in the time to test the virtues of Dr. Thomas' Electric Pain Remedy is now come. It relieves pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

An Odd Electrocution

Physicians at Fergus Falls, Minnesota, said that Wilbur Thompson, 30, highway workman, was killed by an electric shock, although his body did not come in contact with any electricity. Thompson was driving a graving machine beneath a heavily charged power wire on a highway near here. The current jumped from the wire to the metal button on Thompson's cap and electrocuted him.

The Child Grows and Matures

Serious Rectal Troubles Often Caused By Harsh Cathartics

(By John Burke Ingram.)

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO's "Fruit Salt" in a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

Better Fire Protection Needed

More Organized System For Rural Districts Is Stressed

A more organized system of fire protection in rural districts was urged recently by David J. Price, of Washington, D.C., chief engineer of the Bureau of Chemistry and Soils. U.S. Dept. of Agriculture, addressing the annual convention of the National Fire Protection Association in Toronto.

Fire loss on farms in the United States last year, was the greatest ever experienced, he declared. From available information, it appeared that farm fire losses increased 25 per cent. during the 1930 season drought, he said. The loss for the year was estimated to be in excess of \$125,000,000.

Spontaneous heating and ignition of agricultural products constituted, he said, one of the prominent causes of farm fire loss.

Largest Persian Rug

What is said to be the largest Persian rug in the world is rapidly taking shape in New York. It is being built for the mahogany of the new Waldorf-Astoria Hotel and will be more than 70 feet long and nearly 50 feet wide. The design to be followed is that of a Persian garden.

Miller's Worm Powders Are the Medicine for children who are suffering from the ravages of worms.

They immediately reduce the worms under which the worms subside and drive them from the system, and at the same time they are easily digested and enter the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

Wing Commander Charles Kingsford-Smith was awarded the Oswald Watt medal for the most courageous flight made in 1930.

Wing Commander Charles Kingsford-Smith, of the Australian Aero Club, selected him for his flight from Dublin to Harbor Grace, Newfoundland, last June.

REMNANTS

REMNANTS—3 lbs. Prints, \$1.00; 2 lbs. Silk, Velvet or Crochet, \$1.00. Agents, dealers wanted. A. McCrory, Co., Chatham, Ontario.

REPRESENTATIVE WANTED

Would you like to be the local representative for fast selling household products? Write Clarence Cameron, 39 Wellington St. E., Toronto, Ont.

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Appleford Paper Products LIMITED

Western Representatives:

HUNTER-MARTIN & CO., REGINA, SASK.

Official Opening Of Churchill Port Is Set For 1932 Season

Ottawa, Ont.—Official opening of the port of Churchill on Hudson Bay will not take place until 1932. This was stated in the House of Commons by Hon. R. J. Manion, Minister of Railways and Canals, during continued discussion concerning the supply of an item amounting to \$6,000,000 for the Hudson Bay Railway and terminal construction. The item, which was under consideration for some hours, passed the committee.

Dr. Manion informed the committee that about all that could be done this year would be to have some trial shipments out of Churchill. These were regarded as important, and the department was devoting its energies to getting the port into condition to permit them. The big elevator now under construction, he said, would not be ready until September, the navigation season in and out of the bay was comparatively short, and consequently, if the test shipments were successfully carried through the department would have done about all that could be expected.

Concerning the numerous of ship-
ping through Churchill for the sake of advertising their products, said Dr. Manion, had been informed that they must wait until 1932. He also stated that there was no intention of making a trial shipment of livestock from Churchill this year.

John Vallance (Lib., South Battleford) asked the minister if it was the intention of the government to permit any private elevator companies to build elevators at Churchill.

Dr. Manion replied that applications for the right to build elevators at Churchill had been received from private companies. He presumed that if applications were received from private companies they would have to be considered.

Mr. Vallance expressed the opinion that before permission was given to any private companies to establish elevators the matter should be discussed in parliament. He and some of those associated with him were of the opinion that no private elevators should be permitted at Churchill.

The question of the official opening was raised by C. R. McIntosh (Lib., North Battleford), who emphasized that the West desired a real test of the Hudson Bay route. The West regarded this route from a national point of view, he said, and the opening should be continual in nature.

In answer to F. G. Sanderson (Lib., South Perth), Dr. Manion stated that the \$6,000,000 vote would largely complete the terminal construction at Churchill. It was possible that approximately the same amount would be required next year to clean up the work.

Again Holds High Position

Humble Miner Heads General Assembly Of Church Of Scotland

Edinburgh, Scotland.—James Brown, a humble miner, who became a Labor M.P., once more was appointed Lord High Commissioner to the General Assembly of the Church of Scotland.

He and Mrs. Brown were installed again at Holyrood Palace, where they held a levee with all the pomp and dignity of royalty. Later Mr. Brown and his wife drove in semi-state with outriders to St. Giles' Cathedral.

Divergent Views Heard At Conference Of Wheat Exporting Countries

London, England.—Divergent views are developing at the conference of wheat-exporting countries here. The United States delegation stands by its view first announced of non-participation in any international organization, against export quotas of wheat, and in favor of reduction of wheat acreage as the one way out of present difficulties. Russia has virtually joined the Polish and Danubian countries in favor of export quotas. And Russia introduced a new element which is likely to arouse opposition.

The Polish plan proposed quotas but did not attempt to fix any basis for the quotas. The Russian plan has not yet been published, but it is considered to propose that the average wheat exports in the five-year period immediately preceding the Great War should be taken as basis for the quotas. But such a

Woman Rancher Is Dead

Nellie Bowen Established Famous "Bar U" Ranch At High River

Montreal—Frith, in this city, learned recently of the death in Mexico City of Nellie Bowen, who established the famous "Bar U" ranch at High River, Alberta, before the Canadian Pacific Railway had been built across the prairies. Miss Bowen was a direct link with the covered-wagon days and on her annual trip to Quebec delighted her friends with narratives of her pioneer life.

About 20 years ago Miss Bowen established a home in Mexico and since that time had alternated in living in that country and Quebec. She was last here in the summer of 1930. During the war Miss Bowen was directoress of an army hut at Epsom, England. Her remains will be cremated and the ashes brought to Quebec, where she was born.

British House Refuses To Legalize Lotteries

Application To Introduce Bill Defeated By Large Majority

London, England.—House of Commons came down hard on advocates of legalization of lotteries in support of hospitals, defeating by 181 to 58 an application by a Conservative member for leave to introduce a bill authorizing the operation of such lotteries.

There has been considerable agitation in favor of loosening up the laws in this respect in view of the great sum which has gone out of the country into the Irish Hospital Sweepstakes on horse races, while charitable institutions at home need money.

World Rover Scout Meet

Scouts From Western Canada Will Attend Meeting In Switzerland

Ottawa, Ont.—Canada will be represented at the World Rover Scout meet, to be held at Kandersteg, Switzerland, from July 29 to August 8, as announced by John A. Stiles, chief commissioner of the Canadian Boy Scouts' administration.

The Canadian contingent will assemble in Ottawa for a brief training period prior to sailing from Montreal on July 18. Rover scouts attending include: Tom P. Stark, Saskatoon; Jack Toomba, St. Vital, Man., and F. Hiroon, Andrew, Alberta.

Plans For Conference On Unemployment

Mayor Of Winnipeg Proposes Meeting Of Manitoba Civic Officials

Winnipeg, Man.—Mayor Ralph H. Webb, of Winnipeg, has outlined a proposal for a province-wide unemployment conference. Mayors of cities and towns throughout the province will be invited to attend the party. Concrete proposals to aid unemployed next season would then be laid before the provincial government. Mayor Webb said. In the meantime, he intends to call a meeting of representatives of greater Winnipeg municipalities.

Stiff Sentences For Reds

Revolutionists In Indo-China Given Long Prison Terms

Paris, France.—A Hayes despatch from Hanoi, French Indo-China, says long prison terms have been given Communist revolutionists following a three-day trial at which it was revealed Communist plots in Indo-China were directed from Canton.

The chief of the Saigon Communists was sentenced to life imprisonment for participation in the assassination of a native foreman of the French administration. Five others were given 20 years, seven were sentenced to 15 years and 48 from five to ten years.

An alleged plot to assassinate Governor-General Squier at Saigon was revealed during the trials.

Private Members Restricted

If Motion By Premier Bennett Is Approved

Ottawa, Ont.—Private members have had their last entree day in the House of Commons during the present session, if a motion placed on the order paper by Premier R. B. Bennett is approved.

Mr. Bennett's motion provides that on and after Monday, May 25, and all subsequent Mondays, at the end of the session, members shall not shall take precedence. After the resolution is approved, there will remain only one hour on Tuesday evening, between eight and nine in each case, for consideration of private members legislation.

Figures On Butter Imports

Total For Three Months Was 2,148,494 Pounds

Ottawa, Ont.—Total imports of butter from all countries into Canada from February 1 to April 30, 1931, were 2,148,494 pounds, stated Hon. C. H. Cannon, secretary of state, in the House of Commons. Rates of duty collected were \$4,862,000 at 12 cents per pound, 176 pounds at 12 cents per pound; 308,440 pounds at eight cents per pound (less ten percent), and 1,632,416 pounds at 12 cents per pound. New Zealand butter was imported to the total of 286,440 pounds, and Australian 1,632,416 pounds.

Australia's Wheat Surplus Is Decreasing

Amount Yet Unsold Given As Thirty Million Bushels

Ottawa, Ont.—Australia has only 30,000,000 bushels of her 1930 wheat crop yet unsold. This announcement, most encouraging to those concerned in the marketing of Canada's wheat surplus, has reached official sources here.

Removal of this large amount of Australia's supply, it is stated, will clear the way to a considerable extent for the marketing of Canadian wheat. The wheat acreage in Australia this year will be substantially less than 1930.

Viscount Coming West

Winnipeg, Man.—Viscount Dunborough, 18-year-old son of Lord Dunborough, Canada's Governor-General, will spend June and July in Western Canada. He will arrive in Winnipeg June 7, and journey westward two days later. Considerable time will be spent in the Rocky Mountains.

LITTLE TRAVELLERS MADE LONG JOURNEY

Unperturbed—these three little travellers, Antoni, Helena and Josef, aged 4, 4, and 7 respectively, who travelled unaccompanied all the way from Yugoslavia, posed for a press photographer upon their arrival at the Canadian Pacific Winnipeg Depot. Later they continued their journey to join their father, P. Luszka, at Coleman, Alberta.

WITH POLAR FLIGHT

Lady Grace Drummond Hay, English writer, who, it is announced, will accompany the Graf Zeppelin on its projected flight to the North Pole, and will be the first woman in history to be a member of an expedition to the top of the world.

Gold Rush Continues

Many Claims Already Staked In Lake District

Fife Lake, Sask.—The "rush" to the Poplar Creek bed, six miles southeast of here, and on towards Coronach, continues and many claims have been staked.

According to information received, M. D. Bennett, a farmer opposite Mr. Woefflin farm, two years ago sent samples of the dirt to Los Angeles to be assayed, and received reply that there were traces of gold in Larson.

Mr. Bennett's claim is the first to be staked in the area. The name of the claimant has not been disclosed. The Woefflin farm, is reported to have sent samples recently to Los Angeles, and to have been informed that the dirt he sent contained gold running from \$2 to \$20 a ton.

Fife Lake is almost directly south of Moose Jaw, about 90 miles, located in range two, about ten miles from the International border line.

Men familiar with the district, who have explored it, claim there are heavy deposits of iron pyrites in the formations in the hills and along the banks of the creek, and in the branches of Frenchman's creek.

So far no gold is known to have been taken from the places where claims have been staked during the past two days.

Select Title For Book

Portage la Prairie, Man.—The title of the book published by the Timers' Association of Portage and district was selected by the historical committee on Saturday, May 16th, "The Tread of the Pioneers," the title suggested by Mrs. M. G. Tibbles.

Several letters were received from those residing Winnipeg who took a keen interest in the award.

Trans-Atlantic Flight

Sydney, N.S.—Indication that Miss Betty McIvor, of Cape Breton, at least an emergency stop on her proposed trans-atlantic solo flight, will spend June and July in Western Canada. She will arrive in Winnipeg June 7, and journey westward two days later. Considerable time will be spent in the Rocky Mountains.

Survey Is Made Of The Proposed Mafeking Cut-Off Line

Ottawa, Ont.—Construction of the Mafeking cut-off on the Hudson Bay Railway provided material for a lively debate in the House of Commons and a speech from Hon. R. F. Mansur, Minister of Railways and Canals, the statement that survey of the proposed line had been made during the winter and that whether it would be built depended on the report of the survey and the financial condition of the country.

The house had under consideration a vote of \$6,000,000 for the Hudson Bay Railway when J. L. Brown (Lib., Lisgar) asked what the Mafeking cut-off. It had been a dominant issue in the election campaign in Manitoba, Dr. Mansur had promised it would be built if the Conservatives were returned to power. Dr. Mansur denied this but Mr. Brown repeated his statement. The Conservative member for Dauphin, J. L. Bowman, owed his election to that promise. Mr. Brown:

"I did speak in a number of places in Manitoba," said Dr. Mansur, "and my honorable friend will remember there were quite a number of Conservatives elected."

"You did not go into my constituency," said Mr. Brown.

"I did go into my friend's constituency," replied the minister, "and if it had not been for a rainstorm he would not be here today criticizing us. We could not hold the mass meeting we planned to hold, and I am informed any kind of a dumb speaker like myself could have beaten him."

"I do not believe the Mafeking cut-off should be built," said Mr. Stitt, "but I do not believe it is the line which will give the best service to Manitoba, but there is demand for a shorter route to Churchill."

Work on the Hudson Bay Railway was progressing very satisfactorily, said Dr. Mansur. The elevator at Churchill would be completed during the summer and the road would be in good shape to carry grain which might be shipped over it this fall. About 1,000 men were now employed on the railway and about 2,000 would be employed during the summer.

Dr. Mansur stated that in the first few years dating from the start of construction of the railway in 1909, there was comparatively little money spent. But in the fiscal year 1912-13, when the Conservative party came into power, the appropriations increased considerably. He had not personally made any definite promise during the campaign respecting construction of the Mafeking cut-off.

Questioned by Hon. W. R. Motherwell, former Minister of Agriculture, Dr. Mansur said there was no intention to have the elevator at Churchill operated by private individuals, but it would be operated under the Department of Railways and Canals.

To date, a total of \$46,000,000 had been spent on the railway and the terminal. Dr. Mansur declared. Estimated total cost of completion was \$33,000,000.

B. M. Stitt (Cons., Nelson) declared that Hudson Bay and Hudson Straits never froze. The straits packed with ice, but due to current conditions, did not freeze. A navigator with considerable experience had expressed the belief that, with proper aids to navigation, he would rather land at Churchill or Nelson than the port of Montreal. The Mafeking cut-off, he added, was a considerable issue in his constituency.

He was anxious, concluded Mr. Stitt, to have the Mafeking cut-off started. There were quite a few unemployed in his constituency, and the world needs good ports for them.

The Minister of Railways was asked if the Prime Minister was saying, as he had, that the Mafeking cut-off was not a part of the Canadian National Railways, but was a part of the Hudson Bay Railway.

Establishes Friendly Relations

COUNTLESS WILLINGON CAPTURES HEARTS OF WOMEN OF INDIA

Simsi, India.—Countess Willingon, wife of the new viceroy, captured the hearts of India's women recently when she received Mahatma Gandhi's wife at the viceregal castle and talked with her for more than an hour.

Mrs. Gandhi promised to send her some of the homespun "kudar," of which her own gown was made.

Poultry Prevents Poverty

GREATLY AIDING CANADIAN WEST IN THESE DAYS OF STRESS

Ottawa, Ont.—The humble hen is one of the greatest factors in aiding the Canadian west through these days of stress. Mrs. Fred C. Elford, Dominion Poultry Husbandman, following an official trip through the Pacific Coast:

"It is poultry which is carrying things along," he declared. "For the farmers have the feed on hand and are turning it into new laid eggs."

Complaints Are Voiced Regarding The Existing Freight Rate Structure

Ottawa, Ont.—Alleged discrimination against western shippers as a result of difference between domestic and export freight rates formed the subject of debate in the House of Commons. The matter was brought up by Thomas Reid, Liberal member for New Westminster, on a government motion to go into supply.

Mr. Reid continuing his speech wound up with an amendment calling upon the House to declare in favor of fixing an early date for the cabinet to hear the petition against the prevailing domestic rates, from the provinces of Alberta, Saskatchewan and British Columbia.

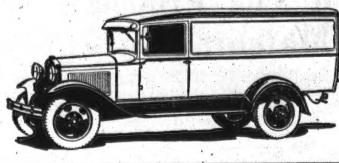

An amendment to supply is equivalent to a motion of want of confidence, and consequently could not be accepted by the government. This was made clear by Rt. Hon. R. B. Bennett, Prime Minister, when he followed Mr. Reid in the debate. The Premier reviewed briefly the history of the last appeal to the Privy Council against the judgment of the Railway Commission on the rates.

The appeal, heard by the government of Rt. Hon. Mackenzie King in 1929, had been decided in favor of the defense of the existing rates.

"No," Mr. Coote answered. "I would not go that far." But, he added, some decisions of the board were hard to understand.

W. J. Loucks (Conservative, Rosemont), said he believed the time was ripe for a reduction in domestic rates. Something should be done; and in view of the remarks of the Prime Minister he thought something would be done.

FORD TRUCKS ARE ECONOMICAL

ONE of the reasons why Ford trucks are serving many different businesses, in every part of Canada, is that they are built for local operation. They are economical to keep in service because of their strength and reliability. Forty different kinds of steel are used in the chassis to provide long life and the capacity for hard work.

Bodies are available for the Ford 1½-ton chassis,

"THE CANADIAN TRUCK"

COLEMAN GARAGE LIMITED

Ford Dealers —

which meet the requirements of almost every business. Chassis with 13½-inch and 157-inch wheelbases are available. They can be equipped with a factory-built cab, at low cost. There is a choice of 6.6 or 5.1 rear-axle gear ratios. Dual rear wheels are available at small additional cost.

Come in and let us show you many valuable features of

Ford trucks.

"THE CANADIAN TRUCK"

In a divorce suit filed recently in Dallas, Tex., the plaintiff was O. R. Hill, the defendant Nannie Mae Hill, the attorney Madden Hill and the clerk who served the paper was Troy E. Hill. Isn't that a hill of a note!

Kerr: "Of course, I know marriage is a very grave and serious step to take."

McPherson: "Step, did you say? It's more like a flight of steps and every bit of 'em greased!"

Word comes from Chicago that a scheme has been reached, whereby the baby may henceforth be paid for in installments, along with the furniture, radio and automobile. The Presbyterian hospital has placed on

books, calling for payments as low as one dollar a month. The total payments include pre-natal and post natal care and hospital confinement at birth.

Master Willie Royle made his first public appearance—as a violinist by playing two solos at the recent anniversary of the Pythian Sisters, accompanied by his sister, Miss Nellie Royle, piano.

Among those mentioned in the class of nurses to graduate from the Holy Cross hospital, Calgary, on Tuesday next, we notice the names of Miss Milda Bond, Blairmore, and Miss Ella Celli, Coleman.

Pilot Gunner and a passenger named Albert Peters sustained serious injury when their biplane CF-AOG, otherwise known as the Wings of Cranbrook, crashed near the Fernie airport on Sunday afternoon. The plane was about completely demolished, the nose being embedded some four or five feet in the ground.

As a substitute for a football, Val states he is an absolute failure. A few days ago Val was suddenly moved from a saddle and, not content with that, his fiery steed backed up to him and used the hind paddies with rapidity and force, till Val was laying in small droplets of blood. He has recovered and the pair have again become friends.

THE POPE'S ENCYCLICAL

In an encyclical letter issued by Pope Pius XI last Friday, the pontiff urged reconstruction of the entire economic system "by bringing it back to the requirements of social justice so as to ensure more equitable distribution of the united proceeds of capital and labor."

The pontiff, in selecting this topic for his second important radio broadcast, has chosen a subject which will catch the ear of the civilized world. That Pius XI, head of the Roman Catholic Church, embracing millions of peoples over the entire globe, should now come forth and advocate a change in the present economic system which will make far more equitable distribution of wealth, is a sign of the times.

Millions of Catholics will hang upon every word of the pontiff's pronouncement. The fact that the head of the Roman Catholic Church has condemned the present concentration of wealth in the hands of a few, and advocated a change in the direction of more equitable distribution, will now be accepted as the correct course by millions of his followers.

Although the Pope has envoiced against Communism, and Socialism, intimating that a person "cannot at once be a good Catholic and a true Socialist," his encyclical indicates that the church sees many ills of the present capitalist system and the fact that the supreme head has thus spoken will be the means of awakening in millions a consciousness of that condition.

Truly, such little straws point which way the wind blows—Hanna Herald.

Sambo: " Didn't you tell me that 'procrastinate' means to 'put off'?" Professor: " Dat am the signification of the word—yes sah!"

Sambo: "Den, why did that street car conductor laugh when I says: 'Procrastinate me at 21st street'?"

The closer a man is, the more distant his friends are.

An exchange remarks: "Don't drive with one hand, and you may live to marry the girl."

Bruno Fabro and his sister Frances, were Kimberley visitors to Blairmore over the week end.

Bellevue and Blairmore baseball teams competed on the local grounds last evening, Blairmore taking the long end of a five-four score.

Quite a number of members of the local lodge of Elks journeyed to Fernie last night to attend a meeting at which Grand Exalted Ruler E. E. Hand paid an official visit.

We understand that the erection of a dance pavilion at Crows' Nest Lake by local parties has already commenced and it is hoped to have it in operation in the near future.

FOR SALE—1929 model Whippet Six, rumble seat coupe, splendid condition, runs about 6000 miles. Special price for cash deal—F. M. THOMPSON CO.

E. K. Stewart, of Fernie, was unanimously chosen president of the Crows' Nest Pass Golf Association at the annual meeting held at Lethbridge on Sunday last. Milt Kastner is first vice-president; Miss Sellons, Hillcrest, second vice-president, and Sherwood Herchmer, Fernie, secretary-treasurer.

Commenting on the efforts of George Kerr at the Alberta Musical Festival at Lethbridge, the adjudicator said: "George Kerr played with good style and excellent detonation. It was an altogether good performance, with the competitor showing great promise." Fourteen competed in this class. George is a pupil of Mr. W. H. Moser.

Two Macleod stores were entered and robbed over the weekend. Mr. F. Thiel, formerly of Blairmore, happened to be one of the victims, losing several suits of clothes, an overcoat belonging to Judge McDonald together with about sixty dollars cash. No arrest has yet been made, but the police are hopeful of landing the thieves.

The death occurred at Calgary last week of Major W. J. Stedman, only son of Mrs. W. H. Stedman, of Macleod, and the late T. H. Stedman, at the age of forty-six years. His father died about two years ago. Mr. and Mrs. Ed. McDonald, Mr. and Mrs. A. J. Kelly and Mr. and Mrs. L. L. Morgan, of Blairmore, were among the mourners attending.

On Wednesday of this week the ladies of the Blairmore Golf Club held an informal tea. Some played golf and others played bridge. Mrs. Passmore acted as hostess, and those who assisted here were: Mesdames Farmer, Macalister, Gillis, F. Smith and Steeves. The regular monthly competitions were held on Saturday the 2nd and Saturday the 16th. Mixed foursomes were held on Wednesday, the 20th. On the afternoon of the 24th, twelve couples played mixed foursomes and enjoyed a picnic tea.

TENDERS WANTED

Sealed tenders for the delivery of local coal, including coal to the Central Heating plant, will be received by the undersigned: For full particulars apply to Mr. W. H. Stedman, President. Tenders close, June 15th next.
